

Yulia Burkatovskaya
Tomsk Polytechnic University, 30, Lenina pr., Tomsk, 634050, Russian Federation
Tel. (+7) 913 811 50 41, e-mail tracey@tpu.ru

Date of birth 12 January 1973

EDUCATION

PhD	Tomsk State University Faculty of applied mathematics and cybernetics Supervisor: Sergey Vorobejchikov, PhD Thesis: "Change point detection and parameter estimation of autoregressive processes by noised observations"	Sept. 1995 – Sept. 1998
BSc Mathematics	Tomsk State University Faculty of applied mathematics and cybernetics First class grade	Sept. 1990 – June 1998

EMPLOYMENT

Assistant professor	Tomsk Polytechnic University Institute of cybernetics Department of computer engineering Full-time job	Jan. 2002 – present
Programmer	Tomsk State University Faculty of applied mathematics and cybernetics Department of higher mathematics and mathematical modelling	Dec. 1998 – present (Jan. 2002 – present part-time job)

SKILLS

Language Skills

Russian – native

English – fluent (B2.2 level)

IT Skills

Microsoft C++, Microsoft Excel, Microsoft Word, Microsoft Power Point, Fortran, LaTeX – intermediate

REFEREES

Prof Sergey Vorobejchikov

Professor of the Higher Mathematics and Mathematical Modelling Department of the Tomsk State University
36, Lenina pr., Tomsk, 634050, Russian Federation

e-mail: sev@mail.tsu.ru

Prof Victor Konev

Head of the Higher Mathematics and Mathematical Modelling Department of the Tomsk State University
36, Lenina pr., Tomsk, 634050, Russian Federation

e-mail: yvkonev@mail.tsu.ru

Prof Nikolai Markov

Head of the Computer Engineering department of the Tomsk Polytechnic University
30, Lenina pr., Tomsk, Russian Federation

e-mail: markovng@tpu.ru

RESEARCH INTERESTS

- Guaranteed sequential parameter estimation and change point detection in time series
- Monte-Carlo simulation of acoustic radiation

- Self-checking digital circuits design

TEACHING

In the past:

- Mathematical models of physics (seminars, Russian)
- Programming (seminars, Russian)
- Differential equations (lectures, Russian)
- Linear algebra and analytic geometry (lectures, Russian)
- Function analysis (seminars, Russian)
- Probability theory and mathematical statistics (lectures, seminars, Russian)
- Mathematical models of the theory of finance (seminars, Russian)
- Social and economic statistics (lectures, seminars, English)

Now:

- Discrete mathematics (lectures, seminars, Russian)
- Graph theory (lectures, seminars, Russian, English)
- Automata theory (lectures, seminars, Russian)

Supervision of students

- Bachelors 2003 – 2014
- Masters 2007, 2014, 2015

Coach of students' team of programmers 2004 – 2007

Textbooks (in Russian)

- **Yu.B.Burkatovskaya**, N.B.Butorina, A.Yu.Matrosova. Sorting and searching data: methods and algorithms. Tomsk: TSU, 2008. – 140 p.
- S.V.Bikova, **Yu.B.Burkatovskaya**. Boolean functions. Tomsk: TSU, 2009. – 192 p.
- L.I.Burkatovskaya, **Yu.B.Burkatovskaya**. Logical design of digital circuits. Tomsk: TSU, 2011.–172p.
- **Yu.B.Burkatovskaya**, E.S.Veremeenko. Synthesis and testing of discrete systems. TPU, 2012. – 94 p.
- **Yu.B.Burkatovskaya**. Graph theory. Part 1. Tomsk: TPU, 2014. – 193 p.

FUNDING and ACADEMIC AWARDS

- Grant No. 98-01-00297-a of Russian Fond of Fundamental Research "Guaranteed estimation of the regression function with dependent noises with the unknown spectrum", 1998 – 1999 (participant, leader – prof. V.V.Konev).
- Grant No. 00-01-00880-a of Russian Fond of Fundamental Research "Guaranteed conclusions in stochastic systems with nuisance parameters", 2000 – 2002 (participant, leader – prof. V.V.Konev).
- Grant No.06-07-89190-a of Russian Fond of Fundamental Research "Creating a geographic information system for the analysis of the dynamics of the Earth's surface according to aerospace monitoring", 2006 – 2008 (participant, leader – prof. N.G.Markov).
- Grant No. 11-01-08042-3 of Russian Fond of Fundamental Research "Participation in XVIII International IFAC Congress", 2001 (leader).
- Grant No. 16-01-00121-a of Russian Fond of Fundamental Research "New statistical methods for signal and image processing with unknown spectral characteristics in complex dynamic systems" (participant, leader – prof. S.M.Pergamenshchikov).
