

Purpose and objectives

- using a foreign language (English) for communicative skills development (both oral and written skills) in social and academic spheres;
- learning terminology of special sphere, cognitive and research competences development, ability to self-education development, broadening of professional outlook;
- proficiency in English language.

Results

As a result of studying a foreign language (English) learners will be able to get information from foreign sources and exchange it. Also learners will effectively communicate with their foreign colleagues, deal with documentation, present information and defend results of complex engineering activity. Careful attitude to historical and cultural traditions and tolerance to social and cultural differences are also brought up.

Structure and contents

Semesters 1 and 2:

Student life (dwellings, hobbies)

Healthy lifestyle (sport and food)

Higher education

Travelling

Environment

Semesters 3 and 4:

Industry

Engineering

Work and jobs

Basic engineering things (laws, phenomena, processes, units of measurement, formulas, geometric forms, graphs and design)

Materials (metals, polymers, ceramics etc.)

Self-study

Doing home tasks with the help of the Internet, electronic courses developed according to the program.

Research work

- Writing articles
- Making presentations
- Participation in Olympiads
- Project work
