

**Took part in the conferences and seminars with students and master's degree students
(scientific supervisor V.N. Kozlov) 2011-2016**

- The IV-th All-Russia scientifically-practical conference «The Scientific Initiative of Foreign Students and Post-graduate Students of the Russian High Schools». Tomsk, May, 24-26th, 2011. Tomsk. Report: Tamtjurk E.E. (Scientific supervisor V.N. Kozlov) «The Method of Contact Loads Distribution Research over the Cutting Tool Flank-Land» (in Russian)
- The IV-th University scientifically-practical conference of foreign students, master's degree students and post-graduate students of Tomsk Polytechnic University «Communications of Foreign Students, Master's Degree Students and Post-graduate Students in Study-Professional and Scientific Fields». Tomsk, April, 18-22, 2011. Tomsk. Report: Ogidom Oluwole (Scientific supervisor V.N. Kozlov) «Character of Flank Contact Load Distribution at Cutting Tool Wear»
- The VII-th University scientifically-practical conference of foreign students, master's degree students and post-graduate students of Tomsk Polytechnic University «Communications of Foreign Students, Master's Degree Students and Post-graduate Students in Study-Professional and Scientific Fields». April, 24-26, 2011. Tomsk. Report: Ogidom Oluwole (Scientific supervisor V.N. Kozlov) «Problems of Cutting Tool Strength in Machining of Titanium Alloys»
- The 59-th scientifically-practical conference of students and young scientists «Science, Technics and Higher Education». April, 25, 2013. Tomsk. **The diploma of the 2-nd degree.** Report: Ogidom Oluwole (Scientific supervisor V.N. Kozlov) “Influence of Chip Formation Character on Contact Load Distribution on Flank Land Wear of Cutter”
- The XIX-th International conference of students, post-graduate students and young scientists "Science and Education", April, 20-24th, 2015, TSPU, Tomsk. **The diploma of the 1-st degree.** Report: Igboanugo P.F. (Scientific supervisor V.N. Kozlov) “Problems of Cutting Tool Strength in Machining of Titanium Alloys”
- The IX-th International scientific and practical conference “Mechanical Engineering, Automation and Control Systems” (MEACS-2015), MEACS conference, December 1-2. 2015. Report: “Strength of inserts in titanium alloy machining”. V. Kozlov, Z. Huang, J. Zhang
- The XX-nd International conference of students, post-graduate students and young scientists "Science and Education", April, 18-22, 2016, TSPU, Tomsk. **The diploma of the 2-nd degree.** Report: Cui Jian, Huang Z., Zhang J. (Scientific supervisor V.N. Kozlov) «The Method of Contact Stresses Measurement over the Cutting Tool Surfaces» (in Russian)
- The XX-nd International conference of students, post-graduate students and young scientists "Science and Education", April, 18-22, 2015, TSPU, Tomsk. Report: Taxa M.H.M, Sabavath S.K. (Scientific supervisor V.N. Kozlov) “Influence of Chip Type on Distribution of Contact Stresses over Flank Land of Cutting Tool”
