Guidebook on Geocological Educational Training in Khakassia:
G94 study aid / L.P. Rikhvanov, E.G. Jazikov, S.I. Arbuzov, L.M. Bolsunovskaya, I.A. Matveenko. – Tomsk: TPU Publishing House, 2009. – 90 p.

The study aid briefly describes main geocological educational training materials for students from the Geocological Department. Based on natural and mining – industrial systems – this manual reveals geocological problems of mineral lakes, extractive and processing ore – mining industries. Besides, attention is paid to the waste fields.

The study aid is prepared by the Geocology and Geochemistry Department of the Tomsk Polytechnic University and is intended for the students, majoring in 013600 “Geocology” (code 020804 in OKSO-2003).
